WHY ME?

My experience as a business owner has given me the opportunity to understand the diversity and uniqueness of Prince Edward County. We are lucky to have almost every kind of agriculture from large row crop operations, dairy farms, beef farms, orchards and fruit and vegetable stands. Beautiful wineries that make agriculture a tourist attraction. We are blessed to have some amazing culinary attractions throughout Prince Edward County. The challenge is to have sustainable growth while maintaining our boutique culture - small town charm , big city amenities.

The keyword is sustainable, we need to be able to properly support future growth with infrastructure we all can afford.

WHO AM I?

I was born & raised in Prince Edward County. My family operated Morton Sales & Service in Bloomfield until the late 80's. After university, I married my wife Karen. We raised our two children in Brighton, then Trenton. During this time we remained connected to Prince Edward County as we spent a great deal of time at our family cottage on East Lake. Our children & grand children live here & we always knew we would return to 'The County' full time. Last year we moved to Waupoos & have thoroughly enjoyed becoming part of the community.
